Autism (from the Greek "autos" - self, "ism" - orientation) means an active withdrawal from external reality into an inner, imaginary world. Autism is not a disease, but a developmental disorder. All forms of it have one thing in common: social behaviour and communication are disrupted. For this reason, it's difficult for many parents to develop an emotional connection with their autistic child.

AH production

in coproduction with Andreas

and RTVS - Slovak Television and Radio

present a documentary film

### **So Far, So Near**

Silvia, highly functional autism

Jakub, infantile autism

Milan, atypical autism

Andrej, autism
